Re: Modine Manufacturing Company – Camdenton, MO
Quarterly Report for period ending June 30, 2009
AOC No. 99-HW-002

File

Dear Ms. Kump-Mitchell:

The following is a summary report of the activities completed during the period April 1, 2009 through June 30, 2009 at the above referenced site. This report is being submitted as required by the Corrective Action Abatement Order on Consent, Order No. 99-HW-002 (AOC) paragraphs 91 through 94.

Description of work completed during the quarter:

On April 3, 2009, a teleconference was held with the MDNR and the USEPA to discuss both agencies' positions with respect to TCE toxicity values as they pertain to the vapor intrusion pathway analysis. MDNR, following the lead of USEPA Region 7, stated that Modine's final RFI should address the standards as contained within the January 15, 2009 Office of Solid Waste and Emergency Response (OSWER) guidance memorandum entitled "Interim Recommended Trichloroethylene (TCE) Toxicity Values to Assess Human Health & Risk Recommendations for the Vapor Intrusion pathway Analysis" (the "OSWER Guidance Memo").

On April 9, 2009, USEPA Headquarters withdrew the January 15, 2009 guidance memorandum.

Summary of findings, data, etc.:

There were no new findings or data produced during the quarter being reported.

Summary of problems or potential problems and any corrective measures implemented:

No problems were encountered during the quarter being reported.

Projected work for the next reporting period:

Modine is awaiting MDNR's issuance of the final Environmental Covenant. Modine would appreciate MDNR's completion of this review so that the Environmental Covenant can be recorded. Modine will record the Environmental Covenant this quarter if MDNR completes its review by September 23, 2009.

In light of the withdrawal of the OSWER Memo, Modine continued its preparation of the final RFI report consistent with the agreements made by Modine with MDNR, DHSS, and USEPA to finalize the report in November, 2008.

Instances of Non-compliance with the requirements of the Order:

There were no known instances of non-compliance with the requirements of the Order during the quarter being reported.

If you have any questions concerning this report, please contact Mr. Thomas E. Meitner, EH&S Manager at (262) 636-1412, or by email at t.e.meitner@modine.na.com.

Sincerely,

David L. Lidester
Regional Services Director – Americas
